

New Cleaning Plant at McGillivray Mine Has 100 Tons Per Hour Capacity—Up-to-date Equipment

Specially Designed by Simon Carves, Limited, of Manchester, Eng. New Plant Supercedes Dry Cleaning System

The new coal washery which was recently started up and is now in regular commercial operation is the most modern of its kind. Known as the British Baum, this type of washery is the most popular coal washing plant in Great Britain and is widely employed in the U.S.A. and many other countries. The plant has been designed by Simon Carves Limited of Manchester, Eng., and erected by the colliery staff, as much of the material as possible having been obtained in Canada. The new plant supercedes the dry cleaning plant and some of the hand picking formerly employed, with the object of producing better and more uniformly cleaned coal, particularly of smaller sizes, so as to regularly meet the various market requirements and at the same time to reduce the costs incurred by the cleaning process and increase the yield of saleable coal.

The plant has a nominal capacity of 100 tons of coal per hour of any size below 4-inch. The whole of the coal is cleaned in one unit which consists of a semi-circular steel tank divided down the centre and filled with water. The water is caused to pulsate by putting it under pressure intermittently by compressed air on one side of the box. The raw coal is flushed into the other side of the box where it is supported on perforated steel plates. The pulsations of the water as the coal passes along the box brings about separation of the clean coal and refuse, the latter passing downwards towards refuse discharge gates at the ends of the box while the clean coal flows over the end of the box, which is somewhat lower than the inlet. The washbox is fitted with an automatic device which accurately controls the discharge of the refuse, no matter how the quantity may fluctuate.

The clean coal after leaving the washbox passes onto combined classifying and dewatering screens which grade it into the sizes required and remove the surplus moisture, which is carried away in drainage troughs to a pump sump to be elevated to a conical settling tank to clarify the water, after which it is used over again.

While the coal is passing over the screens it is sprayed with clean water under pressure to remove adherent small particles and to impart a clean and bright appearance to the final products. The fine coal settling in the conical tank is discharged by gravity from

the bottom of the tank onto shaking sieves which clean and dewater it simultaneously. In order to avoid freezing of the coal in cars in the winter a fuel dryer is included in the plant. This consists of a coal-fired combustion chamber and fans to draw the hot gases through the coal as it passes continuously through the drying chamber. The plant is contained in a substantial totally enclosed brick and concrete building which will be steam-heated in the winter and provision is also made for putting steam into the circulating water in the washery so that any freezing can be avoided.

It is interesting to record that a test run has recently been made on this washery with coal from International mine to determine the result which could be expected in the event of a washery plant being installed for its preparation and a preliminary scheme and tender have already been drawn up.

ROAD SURFACING COMPLETED

Completion of the contract for road surfacing on Main street will be made this week, an improvement greatly appreciated by business men and all who use the street. Contractor D'Appolonia has made good progress, and Mr. Sidney A. Mallett, of the Canada Roof Products, Vancouver, has supervised the work on behalf of his company, who manufacture the surfacing material. It is of interest to note that Mr. Mallett is a graduate of the Crystal Palace (London) School of Engineering.

ATTENDED GRADUATION

Mrs. Albert F. Short has been visiting friends in Vancouver, and was accompanied by Mrs. Roy Thomas. They attended the graduation exercises at Vancouver General Hospital, where Mrs. Thomas' daughter Lois was graduated on completion of her three years' training.

OF INTEREST TO SUNDAY PICKNICKERS

Julius Streicher, German publisher, has said "People must be made to realize that God is met in nature and that whoever departs from nature offends God."

A miscellaneous shower was held at the home of Mrs. Robt Phillips on Thursday evening in honor of Miss Betty Foxton, June bride-elect.

HONORED BY KING

J. H. Woods, managing director and editor of the Calgary Herald, is made a Companion of the Order of St. Michael and St. George, in the list of King's birthday honors. He came to Alberta in 1907, and has taken a prominent part in public life. He was president of the Empire Press Union of Canada, and the Canadian Chamber of Commerce.

Coleman Loses First Football Game of Season

Ball and Anderson Scored for Coleman—Blairmore Won the Game, Score 4 to 2.

Combined forces of Bellevue and Blairmore proved too good for Coleman on Saturday evening at Blairmore, when the local eleven were defeated 4-2 in their first soccer game of the season. Blairmore, with the addition of three Bellevue players, are a much improved team, which is shown in the fact that they travelled to Coal Creek in the league opener and brought back a point.

Coleman have added a few new players to their lineup—R. Watson, Read, and J. Ball, and Douglas Moores, who was a junior last year. Coleman pressed continually during the entire game but poor finishing around goal spoiled many scoring opportunities. Blairmore were the better opportunists and Parker put them ahead half way through the first half, much against the run of play. Ten minutes later over-anxiousness made him miss when only a few yards from goal. Coleman drew level when John Anderson and Joe Ball forced the ball through, Anderson being given credit for the goal. The second half saw Blairmore more aggressive and Parker scored his second goal to put Blairmore ahead. Soon afterwards Spillers came in from his wing to drive a hard shot at Ford, the ball hitting underneath the crossbar and rebounding to put Blairmore two up. Ball reduced the lead when he shot from a scrimmage, the ball rebounding off the upright into the goal. Gray put the game on ice for Blairmore when he received a pass from Spillers and scored to make it 4-2 for Blairmore.

Coleman—Ford, Read, J. Fraser, Griffiths, Jim Anderson, Watson, Moores, W. Fraser, Ball, J. Anderson, Brown.

"Forsaking All Others"

John Houghton Died Early Tuesday Morning --Funeral on Saturday

Former Town Constable Passes on Following Lengthy Illness—Served Overseas

Shortly after 6 a.m. June 4 Jonathan Houghton, 63 years of age, expired following several months' illness from heart trouble. Early this year he was given three months' leave of absence from his duties as town constable to go to Vancouver. His stay there appeared to benefit him, but on his return, again taking up duty, it was only a week or two till he was again forced to lay off. Consultation with specialists revealed that his heart was in a very weakened condition, and he was advised to take a complete rest.

For some weeks he had been in bed, and though at times he appeared to rally, yet for a few days prior to his passing it was felt by his family that the end was approaching.

His birthplace was Sutton, St. Helen's, Lancashire, Eng. He came to Canada in 1911, and was employed at the collieries at Passburg under the late W. L. Hamilton until operations were closed down. He then was employed on the tipple crew at McGillivray Coal Co., until in January of 1917 he went over to France with the 192nd Battalion, C.E.F. Returning to Coleman he resumed his work at McGillivray mine, until on July 10, 1919, he was appointed town constable, which position he held till this year.

Members of the family are his wife, formerly Miss Mary Jane Hampton, who was married to Mr. Houghton in England; and sons, Harold of Calgary; Willie and Sidney of Coleman, and daughter Hilda, the last two residing

JONATHAN HOUGHTON

at home. Sisters living are Mrs. W. Borrow and Mrs. W. Antrous, Coleman; Mrs. T. Thornton, Edmonton; Mrs. Rhoda Robertson, England; and brothers, Arthur Houghton, Moose Jaw; James Houghton and Thomas Houghton, both living in England.

He took an active part as a member of the Masonic and Oddfellows' lodges in Coleman, being an officer in each society. Of a very courteous and obliging nature, he gained a large circle of friends who were grieved to hear of his passing, and whose sympathy is extended to the family.

The funeral will be held on Saturday at 2:30 p.m., with service in St. Paul's United church, of which he was a member at one time of the choir. Rev. Roy Taylor, B.A., B.D., will conduct the service. Burial will be in Coleman Union Cemetery.

There are men in Coleman who are not looking for trouble but if trouble hunts them down it wishes that it had tackled a wildcat's lair instead.

Party Supporters Considering Combined Support to Candidate in Provincial Election

Representative Men of Banff and Pass Favor Joint Action—Meeting of Delegates Likely in Calgary

George E. Cruickshank, M.L.A., was a visitor in town on Friday afternoon. He recently returned from a visit to Banff and points in the provincial constituency of Rocky Mountain, where quite a number of line party supporters favor his again running to represent the district. Mr. Cruickshank states his nomination rests entirely with his supporters. A joint meeting at Calgary of representatives of the south and north will likely be held to discuss campaign action.

Mr. Cruickshank was elected in 1930 as an Independent. He polled 1604 votes, while his opponent, Joe Stubbs, Labor, polled 820, and Rock Sudworth, Communist, polled 787.

This election there will be a Social Credit candidate to be named by Mr. Aberhart; a Communist, Harvey Murphy, and a candidate who will in all probability receive the combined support of Liberals and Conservatives. There was rumor of a straight Labor candidate being nominated, but it was from a very indefinite source.

A convention of the Liberal supporters in Rocky Mountain constituency will be held Thursday, June 13, in the Community hall, time to be announced by posters.

There are men in Coleman who know that for the most part what they get out of life they will work for. Chain letter writers and stock slickers leave them alone.

Child Labor

In Canada, and in the western provinces particularly, as in many other agricultural countries, laws are enacted and regulations made under those laws from the operation of which the industry of agriculture and those engaged in it are exempted. For example, legislation regarding hours of labor in industry cannot well be made applicable to agriculture, although there are some idealists who, shutting their eyes to practical conditions, urge that such laws could and should be applied and enforced on the farms as well as in the factories. Workmen's Compensation Acts, passed for the protection of urban workers, are in many respects not applicable throughout the rural sections.

As we proceed to write this article, daily newspapers lie on the desk telling of the complete wreckage of the N.R.A. codes governing industry and business generally throughout the United States as a result of a decision of the Supreme Court declaring such legislation unconstitutional, being beyond the powers of Congress to enact inasmuch as it encroaches upon and usurps the constitutional rights and powers of the individual States of the Union.

Whatever varying and opposing opinions people may entertain regarding the Roosevelt experiment as a whole, there has been general approval of the provisions in the N.R.A. codes prohibiting child labor in shops and factories. It has been estimated that an army of at least 100,000 children marched out of shops and factories with the establishment of these codes, and there was a widespread belief that thereby the increasing problem of child labor had been solved for the time being at least. Now the protection afforded these children has been destroyed, although it may be hoped that those in control of industry will not revert to the employment of child labor.

Unfortunately, industry accounted for only a small proportion of the 700,000 children under 16 who were listed as working at the time the U.S. census of 1930 was taken. By far the greatest number, almost half a million, were found in the ranks of agriculture, to which the codes did not apply. It has been pointed out that the cotton fields, tobacco fields, truck gardens, beet fields, onion fields, potato fields, cranberry bogs, berry farms, hop fields and orchards with each returning season make their demands upon the nation's children, and that to hundreds of thousands of boys and girls, many as young as six, the coming of the end of school sessions means not the beginning of a holiday time of freedom and play but a period of toil that often starts at sunrise and ends at sundown.

Except for the fact that these children work in the open air, their lot is in many respects a harder one than those children in shops and factories, and one can appreciate the yearning expressed by one 12-year-old boy for the day when he will be old enough to get a job in a mill and work only eight hours a day.

The situation in Canada is, of course, not comparable to that in the United States, or in other lands where congested populations eke out an existence and intensive tillage of the land by the whole family is necessary. Furthermore, in Canada our standard of living and of education is much higher than in most countries, and in the cotton, tobacco and other fields of the southern States, Canadian parents, as a rule, are more desirous of giving their children the highest possible education than they are to work them as farm hands and profit-making laborers.

But inasmuch as many of our laws which are designed to protect urban workers and which prohibit child labor are not applicable to agriculture, a greater responsibility is thrown upon parents engaged in agriculture to protect their children and not lose sight of the humanities, the frailties, the limited powers of endurance of young boys and girls, and to remember that their proper physical development and mental outlook on life necessitate hours of play and recreation; that their bodies and minds will be stunted by long hours of work and no play. It is still true that all work and no play makes Jack a dull boy.

This is not to say that farm boys and girls should not be required to assist in the work of the farm, they should. Doing chores is part of their education and preparation for life, and it would be both foolish and wrong to do for them what they should do for themselves, or permit the development of habits of idleness or shiftlessness. But inasmuch as definite laws for their protection from what may be termed exploitation do not apply in rural as in urban life, it is all the more necessary that rural people guard against selfishness and thoughtlessness on their own part in the matter of overworking children on the farm.

Canada stands high in the matter of child labor. It is a matter of national pride that this is so. We stand high in the matter of education, and our school attendance laws afford the greatest legal protection against the exploitation of child labor, both in city and country. It should be the aim of the Canadian people as individual citizens to raise the standard of the child life progressively higher as the years go by, and entirely eliminate the blot of commercialized child labor from this fair Dominion.

Classed As Luxuries

Baths and perambulators are to be taxed as luxury articles in Yugoslavia, according to an announcement by the Ministry of Finance. Other articles included in this order are gramophones and records, flowers and sweets.

If you want to be popular it's a good idea to learn the art of remembering names.

Choose this mineral salt, purifies the blood. Nothing better for Rheumatism, Kidney, Liver, As all Druggists—60c.

SASKAL

Live "Dragons" At Zoo

Habitants Of Dutch East Indies Taken To London

There were live dragons in King George's Silver Jubilee celebrations, but they did not take part in the procession.

There was a pair of them and they were seen for the first time by the public at the zoo. Komodo dragon is their full name, though learned people speak of them as monitor lizards. They came from Komodo Island in the Dutch East Indies, whence they were brought by Lord Moyne, who has been there studying their habits in the wild state. Some of the animals in their native habitat are 12 feet long, and their nearly-related, extinct Australian species grew to 50 feet. And these it is that are supposed to have been the originals of the dragon legends throughout the world.

Seen travelling erect on their four legs—not crawling like the alligator—with their long heads carried aloft and the tips of their long tails sweeping the earth, they are indeed capable of inspiring fright in the primitive mind.

The pair given to the zoo are the most interesting and valuable reptiles in this wonderful collection and some striking photographs of them in their native surroundings accompany the exhibits. They were kept in the zoo sanatorium for a few days so that the keepers might study their habits, and were then put on view for the first time on the King's Jubilee Day.

A Magnificent Statue

Cleaning Revealed Effigy Of Black Prince Is Pure Gold

The Black Prince—or at least his statue—is no longer black. For centuries the statue over his tomb in Canterbury Cathedral has been as black as his name. It was never cleaned.

Then, about a month ago, it was. Centuries of grime and a coating of protective enamel were delicately removed under the direction of Professor W. W. Tristram.

A most beautifully wrought effigy in pure gold on a foundation of bronze was revealed. It is in almost perfect preservation and is one of the most wonderful works of fourteenth-century craftsmanship in existence. The tomb was built 550 years ago.

"The most magnificent tomb in England," is Professor Tristram's description.

"We clean the cathedral regularly," the Dean of Canterbury said, "but for some reason, I really don't know why, it never occurred to anybody to clean the Black Prince. Now that we have done so everybody is delighted, and we are having a great many visitors. The tomb is one of the most lovely monuments in the world. Its value is incalculable."

Gasoline Discovered

Unable To Explain Gasoline Reservoir Near Earth's Surface

A huge underground lake of pure gasoline was discovered in the harbor district near Wilmington, California, causing hundreds of persons to stampede to the scene.

Shallow wells, most of them dug to a depth of only two feet, were producing from four to six gallons of gasoline an hour.

The scene, a low area about two blocks square, was dotted with hundreds of gasoline "prospectors," some of whom brought hand pumps to speed up production. Motorists filled the tanks of their automobiles and trucks.

Fire Chief Ralph Scott, at a loss to account for the gasoline reservoir beneath the earth's surface, said, however, it probably came from a leak many years ago in a pipe line leading from a refinery to a harbor terminal.

More Counterfeiting

Advances Made In Science Makes Danger More Threatening

The United States secret service conceded advances in science have made counterfeiting a more threatening racket than ever before. Statistics prepared by Chief William H. Moran showed there were 999 arrests and 668 convictions for this offense in 1930, while in 1934 there were 2,751 arrests and 1,603 convictions. Officials declared the perfection of photo engraving process has enabled the underworld to turn out illegitimate currency in a much more efficient manner.

Construction of the Canton-Hankow railway in China is progressing so rapidly that the line may be in operation this year.

ALL FOOD MADE HER
ILL

Caused by Acidity—Corrected by Kruschen

"It is only fair to pass these facts on," writes a nurse. "I was suffering from over-acidity and flatulence to such an extent that I was completely ill. I couldn't take food. When I actually forced myself to take something, I would be wretchedly ill. I have now taken Kruschen for 12 months, and I have no doubt that it has righted my digestive system. I am now quite fit and able to work with vigor again."—Nurse E. S. Indigestion is caused by a failure in the flow of the gastric or digestive juices. As a result, your food, instead of being assimilated by your system, simply collects and ferments inside you, producing harmful acid poisons. The immediate effect of the six mineral salts Kruschen is to promote the healthy flow of the vital juices of the body. As you continue with the "little daily dose," it ensures the regular and complete elimination of all waste matter every day. And that means a complete end to indigestion.

A Remarkable Personality

British Empire Suffers Great Loss In The Death Of Col. Lawrence

The death of Col. T. E. Lawrence—or, to be more correct, Col. T. E. Shaw, since evidently he had changed his name by legal process of recent years—robs the British Empire of one of the most colorful figures it has yielded. "Lawrence of Arabia" was more than colorful; he was almost a mythical god. There was even a suggestion of a messianic strain about the man, so remarkable were his powers of leadership and influence.

Lawrence, only 46 at death, and a graduate of Oxford, unquestionably helped to the winning of the World War on the Eastern front. He it was who, by sheer personal influence, quelled friction among the Arabs and roused and marshalled them against the Turks. He helped materially toward Allenby's victories in Palestine. He was a strange combination—scholar, soldier, mystic and diplomat. His was a peculiar yet remarkably effective force projected into a romantic and difficult setting. Lawrence was as unobtrusive as he was effective. He was a poor publicity man so far as he was concerned. Unlike the Pharisees of an earlier day in the life of the East, he sought no greetings in the market place or chief seats in the temple and at feasts—Regina Leader.

Lac Seul Project

Rising Of Water Causes Damage To C.N.R. Road Bed

Rising of the waters of Lac Seul in northwestern Ontario has caused damage to the road bed of the Canadian National Railways, Hon. Hugh Stewart, minister of public works, told the House of Commons, explaining a vote of \$75,000 for the public works bill for Lac Seul project works. The lake is being raised under an agreement between the Dominion and the provinces of Ontario and Manitoba in connection with power developments.

The money will be used for rip-rapping along the railway and contributions to the cost of the work will be sought from both Ontario and Manitoba.

In Memory Of Livingstone

Statue Of Famous Explorer Erected In South Africa

A famous explorer's memory has been perpetuated by a memorial erected almost at the edge of the Devil's Cataract of the Victoria Falls in South Africa, where their roar is always to be heard and the spray of tumbling waters ever visible. The memorial is in the form of a statue of Dr. David Livingstone, and was unveiled by the Hon. H. U. Moffat, a former Premier of Southern Rhodesia, and himself a nephew of the famous explorer and missionary. The memorial to the famous Scott and discoverer of the Falls has been provided by the Federation of Caledonia Societies of South Africa.

Economical Air Transport

Aerial Train Can Drop Gliders At Different Points

A Soviet aerial train took off in mail week from Moscow on an experimental flight and landed four and a half hours later at Kharkov, about 400 miles away. It consisted of one regular aeroplane towing three gliders each manned by a pilot. The idea of such aerial trains is that individual gliders can drop off at different points without the main aeroplane landing, thus providing swift economic air transport.

Russia Making Rubber

Oil Waste And Calcium Used In New Process

New processes for making synthetic rubber out of the waste products of oil refineries and from calcium carbide are being tried out in Russia.

Heads of the Soviet industrial syndicates expect shortly to be manufacturing the product at the rate of 20,000 tons a year.

This will have far-reaching effects on the rubber-growing plantations of the Far East, and will upset considerably the working of the Rubber Restriction Scheme, under which 30 per cent. of the trees are not being tapped so as to force up raw rubber prices.

The first factory for manufacturing rubber from oil waste is now being started in Moscow. The lessons learned there will be applied in the construction of several large plants in the oil well districts.

About 35 pounds of rubber are produced from the waste products obtained from refining a ton of oil. In the past these products in many cases had to be wasted.

The other process, for manufacturing rubber from calcium carbide, is to be operated at Erivan, in Armenia, where a factory is now being constructed. The process is the invention of a number of young Soviet scientists working in Leningrad.

Water is added to the calcium carbide, forming acetylene, the gas of which is often used for lighting. Then, after a series of chemical reactions, a substance called chloroprene is produced and thus ultimately becomes rubber.

The rubber is said to have all the working and wearing qualities of real rubber, and to be very much cheaper.

Best Aid To Sleep

Formula For The Perfect Night-Cap Has Been Evolved

It is generally recognized that the best aid to sleep is warm milk; and that the main use of all night-caps is not as a soporific but as a means of removing from hot milk the unpalatable taste which prevents so many people from drinking it regularly at night. Since tea is the cheapest beverage in the world, and the one that is in every family cupboard, its use in this connection is highly desirable. A formula for the perfect milk night-cap has now been evolved. Tea should be made in the usual way, which means that one should use at least about one cup for each person and one for the pot. The pot should only be filled half way, and when pouring out after the usual four to five minutes infusion, the cups should be only half filled. They should then be filled up with hot milk, but not with boiled milk that is in every family cupboard. Twenty-two million cups of tea are drunk in Canada every day or over eight billion cups of tea a year. The tea industry is therefore one of the farmer's greatest allies, for investigation has shown that the number of people who drink tea without milk is almost negligible.

Welcome Heavy Rain

Australians Glad To See "Knock 'Em Down" Variety

Darwin, Northern Australia, recently welcomed the annual "knock 'em down" rain. Although this aboriginal description of the torrential downpours, which herald the end of the wet season, sounds grim, the rains are very welcome throughout the Northern Territory. These heavy downpours towards the end of the monsoon period level the long grass which earlier falls have caused to grow to a height of six to ten feet.

In the three months following Christmas, about 40 inches of rain fell in Darwin, and the grass bordering the roads was so high that a man walking along the road could not see a friend walking along the footpath. In low-lying sections of the city grass grew in a tangled mass ten feet high. That is why "knock 'em down" rains are welcome.

A Great Salesman

The greatest salesman of the Empire is the Prince of Wales! On a hot day, once, according to Lord Dudley, he talked in Rio de Janeiro for more than an hour. As a result British iron and steel industries received an order for a \$15,000,000 contract. Lord Dudley told the story at a meeting of the Iron and Steel Federation of which he is president.

A blind philanthropist has given \$200,000 for investigations in Scotland on the origins and causes of blindness, working towards prevention and cure.

'Tis Jolly
To be Wise!

There is a lot more pleasure in rolling a cigarette with Ogden's Fine Cut—a tobacco you KNOW will pass your own tests for smoothness, coolness and fragrance.

Smart "roll-your-owners" everywhere are "wise" to Ogden's. They'll tell you that Ogden's Fine Cut and "Chanticleer" or "Vogue" papers make the right combination for rolling smooth, satisfying cigarettes.

An Old Organization

First Holstein Society Started In Germany In 1872

Cattle resembling the present-day Holstein have been bred for centuries along the south shore of the North Sea, from Holland over to Denmark. Some of the early importations into the United States came from the German province of Holstein, just south of Denmark and a breed society of that name was started in 1872. But most of the early importations came from Friesland and the country in Holland bordering on the Zuider Zee and a Dutch-Friesian Society was started in the States in 1879. These two merged in 1885 with the name of the Holstein-Friesian Association of America. Although the most of the foundation stock of the breed came from Friesland the name has stuck, the Holstein-Friesian Association of Canada having been formed in 1891.

New Type Of Tent

Framework Of Airtight Cloth Tubes Has To Be Inflated

A pneumatic tent recently displayed in London must be pumped up. In place of the customary centre pole and guy ropes, the shelter has a framework of airtight cloth tubes that may be blown up with an ordinary motor-car pump when the camping site is reached. When it is erected, the tent is six feet high and seven feet square. Deflated, it fits in a suitcase.

KIDNEY TROUBLE

will result in headaches, backaches, broken sleep, and a tired, listless feeling during the day. At the first indication of any of these symptoms, take GIN PILLS for prompt, safe relief. You'll feel better, look better and sleep sounder. Remember the name

GIN PILLS
FOR THE KIDNEY

Many Canadians Are Honored In King's Birthday List

London. — Knights of nine Canadians, a promotion for one who had been knighted previously, and 97 other awards made on the recommendation of Rt. Hon. R. B. Bennett, Canadian prime minister, appeared in the King's birthday honours list made public here. The Canadian section was the largest since titles were restored in the Dominion on New Year's Day, 1934.

Honors conferred upon Canadians will reach into homes throughout the Dominion, from the cities to the isolated outposts, and in Tokyo, Australia, England, Washington and New York. People in every walk of life, from the humblest to the greatest share in the distinction.

It was known His Majesty on this occasion wished to honor particularly those who had made notable contributions to the arts, science, literature and music, and those who had performed long and faithful service both to the community and the state.

In making his recommendations on this, the fourth occasion titles have been awarded Canadians since restoration of the custom New Year's Day, 1934, Prime Minister R. B. Bennett adhered closely to the expressed desires of the king.

Of the newly-created knighthoods, three went to those who have contributed richly to the literature of the Dominion, one to an outstanding painter, one to a leading Canadian scientist, one to a musician, and one in recognition of generous public service.

An added honor was conferred upon Sir Thomas White, K.C.M.G., Canada's war-time finance minister, who is made a Knight Grand Cross of the same order with no change in his formal title. E. W. Beatty, K.C., president of the Canadian Pacific Railway, was made a Knight Grand Cross of the Order of the British Empire, in recognition of his public services, educational activities and philanthropy.

His Majesty's tribute to the foreign service of Canada was expressed in the creation of Hon. Herbert M. Carter, Canadian envoy, minister plenipotentiary to Japan, as Knight Commander of the Order of St. Michael and St. George.

Literature and science were recognized in Dr. Arthur George Doughty, Dominion archivist, and Dr.

J. C. McLennan, professor emeritus of Toronto University, who were made Knights of the Order of the British Empire. Music, art and literature won the award of Knights Bachelor for Senator Thomas Chais, Quebec; E. Wylie Grier, Toronto; artist; Ernest Campbell MacMillan, dean of music, Toronto University; and principal of the Toronto Conservatory of Music, and Dr. Charles G. D. Roberts, Toronto, one of Canada's best known writers of prose and poetry.

Major-General J. H. MacBrien, head of the Royal Canadian Mounted Police and holder of an enviable military record, was made a Knight Commander of the Order of the Bath.

Women figure largely in the list with 30 honors of various degrees won mainly by long and generous service in social and welfare works, or by contributions to Canadian literature.

Those who have advanced the Boy Scouts and Girl Guide movement in Canada were honored in the persons of John A. Stiles, Ottawa, chief executive commissioner of the Boy Scout Association of Canada, made an officer of the Order of the British Empire, and Mrs. Sarah Trumbull Warren, Toronto, chief commissioner of the Canadian Girl Guides' Association, made a Knight Commander of the British Empire.

Two other famous contributors to the literary life of Canada, Rev. Charles W. Gordon, Winnipeg, whose many books have appeared under the name "Ralph Connor," and who won distinction as a chaplain at the front during the Great War, and Mrs. L. M. MacDonald, better known as "L. M. Montgomery," received awards.

Dr. Gordon is made a Companion of the Order of St. Michael and St. George, and Miss Montgomery an officer of the Order of the British Empire.

Dr. Allan Roy Daeof, the obscure country doctor whose name became a household word a year ago when he attended at the birth of the Dionne quintuplets in Callander, Ont., and Miss Montgomery, an international fame he brought the world's only living quintuplets to a healthy first birthday, is also made an officer of the Order of the British Empire.

Irish Free State Neutrality

Would Not Be Used As A Base For Attack On Britain

Dublin. — President Eamon de Valera assured the daily the government would never permit Irish Free State territory to be used as a base for an attack upon Great Britain by another power.

Replying to an opposition onslaught, De Valera said war in Europe might possibly develop into a very serious situation for the Free State. He said the Free State would do everything in its power to defend its own territory.

The president said the government was prepared to draw up an agreement with Britain and to purchase from her, pound for pound. It was even prepared to give her a preference when the Free State had to buy goods outside the country.

Military Alliance

Reported Secret Understanding Between Japan and Germany

London. — The Daily Express, under a Washington, D.C., dateline, asserted it had been learned a secret military alliance between Japan and Germany has been concluded.

The newspaper said under the alliance "German army officers are to go to Japan to co-ordinate the action and Japanese officers are likely to go to Germany."

Misleading Statements

Ottawa. — Making untrue or misleading statements to obtain a passport or visa is made an offence under the criminal code by an amendment approved in the House of Commons. The penalty is imprisonment for two years or a fine of \$500 or both.

Tribute To Dr. Cora Hind

Women's Press Club Honors Western Journalist

Ottawa. — Tribute by newspaper-women of Canada to Dr. E. Cora Hind of the Winnipeg Free Press as "one of the greatest of their cult," was paid by the Canadian Women's Press Club here at a banquet by the government tourist bureau.

Held in the parliamentary restaurant, the function, of which Hon. R. J. Manion, minister of railways, acted as host, was attended by nearly 200 female members of the craft, with a mere quittance of males "gracing" the proceedings.

The eulogium on the service rendered to Miss Hind, upon whom the University of Manitoba a few days ago conferred the honorary degree of doctor of laws, was pronounced by Miss Charlotte Whittell, C.B.E.

Dr. Manion sketched to his hearers a picture of the tourist bureau's work, paying tribute to Hon. W. H. Dennis of Halifax, who had been chiefly responsible for its establishment, and to Dr. Leo Dolan, who directs its activities. Last year, the minister said, the Canadian people derived more money from the expenditures of tourists than they did from the sale of wheat. The significance of the industry was illustrated, he said, by the fact the state of Maine alone had a revenue of \$100,000,000 annually from tourists.

Monk Sent To Prison

Heavy Sentence Is Imposed In Nazi Court

Berlin. — A Nazi court meted out the heaviest penalty possible on Otto Goertler, a monk, charged with violation of the foreign exchange laws.

Goertler was sentenced to 10 years in the penitentiary, loss of citizenship for an additional five years and was fined 350,000 marks (about \$140,000). If the fine is not paid the monk must serve an additional 27 months in prison.

Shares of the Faber Industry, valued at 44,000 marks, will be confiscated from the monastery to which Goertler was attached. The monastery also was fined 500,000 marks.

Celebrates His Birthday

Famous Dr. Daeof Entertained By Newspapers Of North Bay

Callander, Ont. — Dr. Allan Roy Daeof was all but smothered under an avalanche of congratulations as he celebrated his own 52nd birthday and looked back on the happy observance of the Dionne quintuplets' first birthday anniversary.

Newspapers marked the double event on May 28 by entertaining Dr. Daeof at dinner in North Bay and presented him with an engraved silver pitcher.

Letter Mailed Too Late

Ottawa. — The city post office disclosed receipt of a letter postmarked "Vancouver and addressed to Col. By Major Hill Park. The name and address were right but the letter should have been mailed at least 99 years ago before Col. John By, who founded Bytown, later Ottawa, and built the Rideau canal, died. Post officials said the postmark was recent. They sent the message to the dead letter office.

PRINCE FREDERIK AND HIS BRIDE

Stockholm, Sweden. — Two hundred thousand cheering Swedes packed Stockholm's streets to bid farewell to Crown Prince Frederik of Denmark and Princess Ingrid of Sweden. Frederik's bride and Denmark's future queen. Their brilliant wedding in the 13th Century church where all kings of Sweden's Bernadotte line have been crowned, was attended by such an assembly of crowned heads, royalty and notables as Scandinavia seldom has seen.

GEORGE OF GREECE

The possibility of a reconciliation between ex-King George and ex-Queen Elizabeth of Greece is stated to have been discussed in Bukarest between the Greek Foreign Minister and the ex-Queen herself. A reconciliation it is stated, would be a preliminary to an eventual restoration of the monarchy of Greece. Here is a recent picture of the ex-King.

Reciprocity Pact

Active Negotiations Of Trade Agreement With U.S. To Commence Soon

Washington. — State department officials say that active negotiation of a proposed Canadian-American trade agreement probably would begin within the next few weeks.

It was expected that several experts would be sent from Ottawa to assist William D. Herridge, the Canadian minister, who will conduct the negotiations.

The state department announced early this year that a new pact would be negotiated with Canada, and hearings on a proposed agreement were held here on March 18. Since then both Canadian and American officials have been working on data concerning items to be included.

Storm Causes Heavy Damage

Property Loss Near Sarnia, Ontario, Will Total \$75,000

Sarnia, Ont. — Two persons injured and property damage totalling \$75,000 was the toll of a severe storm which swept over a small area in Sarnia township, eight miles east of here.

Two houses and seven barns were destroyed, roofs torn off other buildings, orchards uprooted. A highway was strewn with trees, telephone poles and wires for about a mile, as a wind of tornado proportions accompanied a severe thunder storm.

The storm passed over the city without doing any damage. Property damage was done in a narrow strip on each side of the provincial highway.

Federal Loans

Ottawa. — Further loans from the federal treasury to Alberta and British Columbia, of a total of \$2,250,000 for various relief purposes, were announced by Finance Minister E. N. Rhodes. British Columbia gets \$1,500,000 and Alberta \$750,000.

Devastating Earthquake Takes Heavy Toll Of Life And Property In India

Karachi, India. — Three tremendous rumbling earth shocks shattered the northwest frontier city of Quetta, killing an estimated 20,000 Europeans and natives.

It was feared the death toll would go much higher with receipt of reports from outlying districts, especially between Quetta and Kalat.

Latest reports from the stricken city placed the number of European casualties, both killed and injured, at between 100 and 200.

Unnumbered thousands were left homeless, destitute and panic-stricken when the three successive quakes, the most violent lasting 60 seconds, racked their homes to pieces about them.

Scores of British and Indian troops dropped in the streets from sheer exhaustion after unbroken hours of digging into debris, succoring the injured and organizing relief activities.

One relief train left Karachi at night. Another was being prepared. Meagre advice said 50 Europeans and 153 Indians injured in the quake had been extricated from the ruins by military rescue parties and given hospital treatment.

Other reports said the Babu and Moti districts, most thickly populated parts of Quetta, were completely razed.

Still other unconfirmed reports said the main bazaar on the Bazar Road to Quetta was a scene of a severe storm followed the quake.

The important frontier post of Chaman, 60 miles northwest of Quetta, was reported wiped out.

Two Royal Air Force planes were scheduled to take off in the morning to assist in relief work in the devastated area.

Quetta's normal military and civil population of over 60,000 had been swelled by thousands come from

the lowlands to escape the intense summer heat so that death, when it struck in the darkness of early morning, had so many the more victims.

A wireless message from Quetta, which gave the first complete estimate of the dead, placed the figure at 20,000 or more, although earlier unofficial estimates were as high as 30,000.

Hard hit was the Royal Air Force at Quetta, 44 of whose garrison died as the barracks were demolished. Twenty to 30 more were reported missing. The victims included at least three white children.

Sir Norman Carter, agent of the viceroy, and his entourage escaped death only through quick-wittedness. When the first rumble was heard, Sir Norman warned all his staff to run for the open. They did so just as the building crashed about them. Only the door frames remained standing.

The earthquake hit around 3 a.m. with three violent shocks, devastating the countryside around the northern frontier district.

Although offices of the government-general and staff college and military headquarters escaped serious damage, the thickly populated native districts were destroyed by the shocks. Among those reported killed were Meredith Jones, of the political department, and his wife and her mother, Mrs. Bradford, an irrigation engineer named Francis, and also his wife. Aviators reported killed included Flying Officer Charles Paylor.

The quake wrought its havoc in about one minute.

The province of Baluchistan, populated by 850,000 persons, was hardest hit. Mastung, with 4,000 population, suffered a loss of 80 per cent. of its inhabitants.

False Advertising

A Heavy Fine Is Provided For Misrepresentations

Ottawa. — A fine of \$200 or six months imprisonment or both, is the penalty imposed for a species of false advertising under an amendment to the criminal code approved by the House of Commons. The provision follows a recommendation of the price spreads commission.

It makes it an offence to include in an advertisement a statement or guarantee of the performance, efficiency or length of life of any product without such statement or guarantee being based upon a proper test.

Expect Good Crop

Soviet Union Committee Look For Record Production

Moscow. — High hopes for a record wheat crop were announced by the Soviet union committee on harvests, which said the spring planting program was far ahead of last year and that farmers were flocking to the collective farms.

Planting of wheat up to recently amounted to 215,000,000 acres, 85.5 per cent. of the total program, or 14,826,000 more than on the same date last year.

Makes Protest

Hon. H. H. Stevens Objects To Statements Made At Inquiry

Toronto. — Hon. H. H. Stevens, M.P., suddenly appeared before the inquiry into the affairs of the Manufacturers' Finance Corporation, of which he was a former director. He stated he intended to demand a hearing.

Mr. Stevens listened to proceedings without interruption until that part of the report made by Joseph Sedgwick, K.C., of the attorney-general's department, was read concerning Mr. Stevens' activities as a director of the bankrupt corporation. Mr. Sedgwick had stated Mr. Stevens had received \$200 as "overseas expenses" from the corporation.

Mr. Stevens jumped to his feet and exclaimed, "No, no." His comment, Norman Semmerville, K.C., interposed. "That just shows the effect of having this evidence produced without allowing us a chance to prepare. Mr. Stevens did not receive any money to go overseas from the company and did not go overseas for the company. He did not receive a nickel."

Commissioner J. M. Godfrey, C.C., stated following reading of the report he would give Mr. Stevens an opportunity to give his explanation.

National Crisis Looms In France As Result Of Government's Defeat

Paris. — The cabinet of Premier Pierre-Etienne Flandin resigned after it had met a decisive defeat in the chamber of deputies on its demand for sweeping powers to deal with speculation and save the franc.

The adverse vote was 353 to 202. Fernand Bouisson, presiding officer of the chamber, immediately attempted to form a new government. M. Bouisson is committed to support of the franc.

Defeat of the Flandin administration came after Flandin had risen from a sick-bed to make an impassioned plea for support. A wide split in the Radical Socialist party, bulwark of his government, resulted in the defeat of the six-month-old administration.

A national crisis loomed as the result of the government's defeat, with observers gloomy over further chances of the franc to resist the pressure brought upon it by international speculation in recent weeks. It was forecast Bouisson would attempt to form a national union government.

President Albert Lebrun accepted the resignation of the members of the Flandin cabinet and then called Bouisson into conference. Subsequently Edouard Herriot, leader of the Radical Socialists, and Francois Piétri, naval minister in the defeated cabinet, were summoned to the Elysee palace to confer with Lebrun.

The vote followed a historic session of the chamber in which Premier Flandin desperately defended the bill, despite a painful broken arm, and former premier Edouard Herriot, chief of the Radical-Socialist party, had made a last stand against overthrowing Flandin in personal support of the bill.

President Roosevelt Faces Problem Over N.R.A. Code Collapse

Washington. — A mounting tabulation of price cuts and wage slashes was maintained at N.R.A. headquarters, while President Roosevelt still felt for the public pulse before deciding what to do about N.R.A.

Mr. Roosevelt went into the muddy situation with Donald Richberg, Secretary of Labor Francis Perkins and members of the National Industrial Recovery board in a two-hour conference which discussed recalcitrance but reached no conclusions.

Richberg disclosed the compilation of code abandonments which his aides at N.R.A. were tabulating. The plan is, he said to make this record public, as a specific example of the

immediate results flowing from the supreme court's decision that N.R.A.'s code structure was unconstitutional and therefore void.

The white house kept close check, too, on letters received. Of some 2,000, said Stephen T. Early of the white house secretariat, only three urged final abandonment of N.R.A., with the remainder advocating its continuance in such form as the terms of the court opinion would permit.

At the white house it was said General Hugh S. Johnson, first administrator of N.R.A., was but one of many whom Mr. Roosevelt was consulting on ways and means of retaining the gains and purposes of the blue eagle agency. 2101

NOTES AND COMMENTS

MAJOR DOUGLAS, world-famous exponent of Social Credit theories which have never been tried out because legislative bodies have not been convinced that they can be put into practice has returned to his own business in England. Mr. Aberhart clamors for his report. He and the Liberals score the government for delaying the announcement of the election date. Just why there should be such a hurry only the party politicians can answer. The province won't go any further to the "bow-wows" than it already has, so why get all "het up" Besides, people require a little more time to become thoroughly educated on the working of Social Credit. As far as party governments go, the country muddles along just the same, no matter which is in power. They spend money as fast as the people demand it or they retrench when the people become so burdened that they cannot pay the taxes.

PEOPLE cry out for improvements on every hand; a highway here, more gravel there; a bridge or a public building. All are necessary, as are old age pensions, mothers' relief and other things that require money. Yet when it comes to footing the bill, they cry out against the governments, Liberal and Conservatives, when after all they have in most cases just carried out the wishes of the people. Of course, there may be political steals at times, but as a general rule people of any country in which election by ballot is the rule, get the kind of government they themselves place in power. At times a minority may hold a balance of power, a dangerous thing for the majority. If people use their ballots wisely and are not led astray like sheep in marking ballots, and recognize that government is carried on by compromise, and not by revolution and radicalism, they would not fear such dire results as opposing political forces would have them believe.

A free publicity hound who haunted a newspaper office, and wanted his photo published together with an article, was told he would have to join the "rum club." The qualification for membership was that he buy the boys a couple of bottles of rum as a slight recompense for putting his picture in the paper.

It is not legislation that makes or breaks a merchant, but the business methods he adopts. There is a percentage of retailers that is gradually disappearing. The inefficient have had to make way for those who studied their business and who knew what it was all about. The aggressive merchant, by making new connections, improving his store and studying more thoroughly the correct methods of operation, has held his own and will continue to do so.

THIRTY years ago Crows Nest Pass Coal Co., Fernie, produced in one year 931,249 tons of coal, of which 397,657 tons was sent to the coke ovens, producing 257,702 tons of coke. It is doubtful if all mines in the Pass have a combined tonnage now such as recorded in 1905. \$1,486,000 was the payroll that year.

THE MINERS' CLUB at Hillcrest and the Legion club at Bellevue passed resolutions urging merchants to ship in freight and express for their stores by railroad, and shippers of beer in Calgary were also urged to do likewise. Mine workers realize that railroad traffic increase means more work for miners as well as railroad men. Retail merchants secure 100 per cent of their business from mine workers earnings. Is it not a matter of self-preservation for retailers to use transportation companies who use coal and thereby help to provide work for those who work in the mines? Our vital interests come first, especially from a business stand-point.

SUCCESS PHILOSOPHY

Big business men are sometimes thought of as pessimistic, hard boiled, grouchy drivers.

Charles M. Schwab is known as "the smiling optimist of steel." Mr. Schwab claims that his expectant, intuitive philosophy has greatly helped him reach the top of what he considers the nation's greatest industry. If this statement were made by one born in wealth, we would take it with several grains of salt. But, when it is realized that Schwab was once as poor as the poorest boy in Coleman and has probably labored as hard with hands and back as 99 per cent of the men in Coleman, it is thought worth serious consideration. Mr. Schwab says the depression will disappear and usher in the world's greatest period of prosperity.

THE MEN IN COLEMAN

There are men in Coleman who aren't pushing to get a pull or groveling in the mud for favors. They want health and work and wages and will give honest value in service for a fair chance at the good things of life.

QUALITY places it OUT IN FRONT

Let your own comparisons convince you that the new Master Chevrolet is away out in front—in features—in quality—in value for the money!

Look at the Turret Top roof. There's not another car in Chevrolet's low-priced class that offers you this vital, over-your-head protection of solid, seamless steel!

Look at Knee-Action—now in its second successful year—combined with balanced weight in these new models for the ultimate in the "gliding ride" ... the ultimate in safety!

MISCELLANEOUS

Mrs. A. Webster is spending several weeks vacation in Eastern Canada.

Miss Margaret McDonald returned home from Alberta University on Wednesday.

J. Shields, of Meade's bakery, is sporting a new delivery van on his deliveries.

Mrs. J. Derbyshire and son, Jack, were the guests of friends at Fernie over the week-end.

Coleman baseball team defeated Michel nine 7-5 at Michel, Sunday.

J. Jenkulak received injuries to his pelvis by a fall of rock at McGillivray mine on Monday.

Audrey Dunlop is home from Calgary normal school for the summer vacation.

Mr. and Mrs. John Rogers of Arrow Lakes, B. C. are the guests of Mr. and Mrs. Jack Rogers for a few weeks.

Coleman travel to Coal Creek in a soccer league game, Sunday, Kimberley play Hillcrest on the latter's ground, Saturday.

On Monday it was reported there were about 300 children absent from school owing to the epidemic of measles.

David Davidson, Miss Mercer, and Mr. and Mrs. Alex. Muir and family of Alexo were guests of Mr. and Mrs. Robert Gillies this week.

G. C. Wilton, of Pincher Creek, has been relieving in the Bank of Commerce this week, while Mr. Cardinal was suffering from a severe attack of pleurisy.

The ten-month-old daughter of Mr. and Mrs. Ed. Churla of East Coleman died on Saturday after a short illness. The funeral was held on Tuesday, service being held in Holy Ghost church.

The annual tournament of the Crows Nest Pass Golf and Country Club will open at Lethbridge on Saturday. From the Pass the following will attend; Col. R. F. Barnes, M. Rhynas, G. E. Gruickhank, M. L. A., Mrs. J. Kerr, Miss Sellon, Mr. Large. It is expected for 15 years. They left Scotland in 1924 and came to Lethbridge, leaving in October of that year for Coleman where they have resided ever since.

There are three sons, William of Coleman and Bert who resides at Hillcrest and a son in Scotland, and two daughters, Mrs. A. Henderson of Lethbridge and a daughter in Methil, Fife. Mrs. Pryde has taken an active interest in the Coleman Caledonian society since it first started a few years ago and though at the ripe old age of 70 years, is still able to do her household duties and take an interest in Coleman's welfare.

CLASSIFIED ADVERTISING

Two Cents per Word

with minimum charge of 25c cash. If charged, 15c will be added for additional cost of book-keeping and mailing.

LOCAL AND GENERAL

The regular meeting of Coleman Miners Association will be held in the Community hall on Sunday afternoon for the transaction of regular business and election of officers.

The Home Workshop Club met last Friday evening when a demonstration of Metal Spinning was given. During the summer the meetings will be discontinued.

Enquiries have recently been made at The Journal regarding houses for sale and help wanted. Seller and buyer can quickly and easily contact each other through The Journal classified columns.

Joseph Neil of Waterloo, P. Q. is visiting his brother George and wife. He was last here in 1911, having worked for International Co. for about three years. He is making a holiday tour to the coast.

Splendid support has been awarded the efforts of the football executive in raising finances to carry the team through the season. \$26 was drawn at the bank, Saturday, and \$40 has been received from a number of merchants with several yet to be interviewed.

THE SALVATION ARMY

Lieut. Fred J. Weir, C. O. Meetings as follows: Friday: 7 p. m. Young People's. Sunday: 3 p. m. Sunday school, 7.15 p. m. public salvation meeting. Capt. Ivan Halsey of Macleod will be in charge of Sunday's meetings. Everybody welcome.

Coleman Couple Will Celebrate Their Golden Wedding Day

June 10 will mark 50 years of married life to Mr. and Mrs. William Pryde, who for the past eleven years have been respected citizens of Coleman.

They were married at Strathmigo, Fifeshire, Scotland on June 10, 1885, moving from there to Wormit, Fife, where Mr. Pryde was employed. Moving to several towns where he gained employment they finally settled in Lochore, Fife, where they resided for 15 years. They left Scotland in 1924 and came to Lethbridge, leaving in October of that year for Coleman where they have resided ever since.

There are three sons, William of Coleman and Bert who resides at Hillcrest and a son in Scotland, and two daughters, Mrs. A. Henderson of Lethbridge and a daughter in Methil, Fife.

Mrs. Pryde has taken an active interest in the Coleman Caledonian society since it first started a few years ago and though at the ripe old age of 70 years, is still able to do her household duties and take an interest in Coleman's welfare.

There are men in Coleman who are good citizens, working for community welfare and who guard the reputation of their town, its organizations and their friends as they would that of their own more intimate family circle.

Take notice I will not be responsible for any further debts incurred by my wife, Mrs. A. Polski. Signed, JOE POLSKI.

Stop that STOMACH and LIVER trouble, dizzy head, gas on stomach by taking Hepitola. It has given assured relief to thousands all over Canada. New price \$5.00 at your druggists or send to us. Write for circular and testimonials. Mrs. Geo. S. Almas, Box CJ 1073, Saskatoon, Sask.

HOMING SOCIETY NOTES

On May 10 Old Birds' Race results showed J. Jackson's bird the winner with 1067.9 yards per minute, distance 101 miles airline from Calgary. Eight birds competing.

Second race, May 26, from Red Deer, 186 miles, J. Anderson first, 1169.61 yards per minute. Eight birds competing.

Third race, from Wetaskiwin, 237 miles, on June 2, T. Jackson again won, 1220.83 yards per minute. Seven birds competing.

The northern route is proving better than the eastern route flown in past years. Birds are returning in much better condition and a big increase in velocity is being registered. Birds are arriving closer together with the good trappers "hanging in the bacon." F. Beddington, secretary.

Members' birds competing are Jackson, Anderson, Beigan, Makin, Claes, Beddington, Eyesackers, Tarcon. Prizes are donated by local retailers. Next race on June 9.

GRADUATES WHOSE KNEES TREMBLE

Valuedictorians and salutatorians whose knees threaten to applaud their graduation speeches need not feel that they are alone or insignificant because of obsolete fright. When Dr. Albert Einstein was recently presented with the Franklin Medal, the program said he would make a speech of acceptance. He couldn't do anything but grin. The chairman eased him down by saying to the audience: "An address is not only a matter of goodwill; it also rests on the knees of the gods!"

Here and There

With the warm weather and a fine season almost upon us, dates of opening of the summer hotels and resorts of the Canadian Pacific Railway will be welcome news to tourists. Banff Springs Hotel opens, June 16; Chateau Lake Louise, Emerald Lake Chateau and bungalow camps Wapiti, Yoho, Radium Hot Springs and Moraine Lake, June 21; French River Bungalow Camp, June 15; Devil's Gap Bungalow Camp, June 21; Algonquin Hotel, St. Andrews, N.B., June 23; The Pines, Disky, June 27 and the Lakeside Inn, Yarmouth, June 28.

Portland, Oregon, famous annual Rose Festival will be held this year, June 6-8. Millions of rose blooms will be on display in the many floats of the grand float parade and also in the 47th annual show of the Portland Rose Society.

Marking the Silver Jubilee celebrations of the coronation of King George V, to be held this year, the Canadian Pacific Railway has issued a strikingly handsome folder covering the main events of the coronation from the King's drive to St. Paul's Cathedral on May 6 and ending with the Lord Mayor's Show on November 3.

A beautiful new menu card for the King's Jubilee celebrations has been designed by the Canadian Pacific Railway to be used in all the company's hotels from coast to coast, on ships of the Atlantic and Pacific fleets and on world cruise ships. Its front cover is done in gold with the Canadian Coat of Arms in color at the top and the Canadian Pacific crest at the bottom. The back cover, also done in gold, shows a train in the Rockies, the Chateau Pacific at Quebec City and the Empress of Britain. A maple leaf below the Coat of Arms and a scroll on the back for autographs completes the menu card.

The world is invited to attend the annual Rose Festival to be held at Portland, Oregon, June 6, 7 and 8. This one of the outstanding fests of the United States, will this year show many new and beautiful features, among which the 47th annual rose show of the Portland Rose Society will be not the least important. The whole city will be embowered in roses at that time of year.

Over the period May 15-23 inclusive, the Canadian railways are offering special bargain fares featuring approximately at one cent a mile from various eastern cities to western Canada. Return limit is thirty days from the date of issue of ticket with stopovers within the limit of the ticket at Port Arthur, Armstrong and points west thereof.

Addressing an audience of more than a thousand representative business men at Toronto recently, E. W. Beatty, K.C., LL.D., chairman and president of the Canadian National Railway system was never an honest experimenter in public ownership and that it was neither more nor less than a sad accident. This problem, he said, constitutes Canada's most difficult problem and threatens national solvency.

Starting a tour of Canada which will include the principal centres of the Dominion, Lord Baden-Powell, Chief Scout, Lady Baden-Powell, chief of the Girl Guides, and their two daughters, landed at Vancouver from S.S. Princess Charlotte recently and are being given rousing welcomes in every corner throughout the country.

BUSINESS CONCERNS MUST HAVE VITALITY

Every Day brings new opportunities for service and expansion—a business must perform useful service to promote development and bring increased trade.

THE GREATEST VITAL FORCE AS AN AID TO BUSINESS

is the example it may set for public scrutiny. *Judicious Advertising in The Journal* is a vital force to promote local retail business.

Electors of Rocky Mountain Constituency

Public Meeting

will be held in Coleman Community Hall on

THURSDAY, JUNE 13

at 8 p.m.

to which all interested in the forthcoming provincial elections are cordially invited.

Speakers:

W. R. HOWSON, K.C., M.L.A.
Leader of the Liberal Party in Alberta

FRANK McKENNA

Liberal Candidate for Macleod Federal Constituency

Coleman Liberal Association

Photo Display at Palm Confectionery

Latest Styles in Photographs and Frames—see this display—it will interest you. High-class work in every detail. Everything up-to-date.

WORLD HAPPENINGS BRIEFLY TOLD

Two more Roman Catholic monks have been arrested in Germany charged with smuggling money to the Netherlands, it was announced.

Well-informed quarters said the British government was considering the possibility of holding a seven-power naval conference before the end of this year.

Concluding one of the most successful years in its history, the Canadian Club of New York re-elected Ernest W. Appleby president for a second term.

Deaths in Ceylon's malaria epidemic totalled 82,637 since last November, it was revealed with publication of figures showing 15,933 malaria deaths during April.

L. R. Cordeau, chairman of the Quebec liquor commission, announced that restaurants henceforth will be allowed to sell beer and wine with meals on holidays and Sundays.

James W. Blake, the man who wrote the "Sidelwinks of New York," died recently in St. Vincent's hospital, New York. Blake, 72, died penniless. He never received royalties for the song.

Destined for service as a newspaper, with the entire Japanese empire as its "beat," a powerful monoplane has gone to Osaka, Japan, on the Tokai Maru. It is the property of the Osaka Mainichi, Japanese newspaper.

Minister of the Interior T. G. Murphy told the House of Commons that \$225,000 will be spent this year on the Jasper-Lake Louise highway in Alberta. The money will be provided in the \$33,000,000 construction bill.

The Canadian Pacific Railway has placed the order for 7,000 tons of rails with the Dominion Steel and Coal Corporation to be rolled at the Sydney plant, it was learned. The plant is now working on a South African order.

Pioneers in Cocoa Business

Founders of Three English Firms Were All Quakers

The Port of London Monthly, which records the export and import trade of the British Empire, digressed from the shipping business in a recent month to relate the rise of three Quaker firms who loom large in the cocoa trade, shipping to all parts of the world. The Editor relates how "after a time the manufacture and sale of cocoa and chocolate in this country were embarked upon by several families of the religious denomination of Quakers. The Frye in the west of England, the Cadbury in the Midlands, and the Rowntree in York—all belonging to the Society of Friends—were pioneers whose names are all now writ large in chocolate all over the earth. Each of the businesses, beginning in modest style, has now expanded to a size and repute which makes this trio of names known everywhere."

A Colorful Memorial

Man Builds Wonderful Garden in Memory of Son

Gideon Price, sixty-eight years old, of Lattimore, N.C.—the "hulky king" of the world, with a garden of 100 tulips—has built up his garden as a memorial to his son who died overseas during the World War. Only Price has worked in the garden. The plots, giant color combinations that an artist would conceive, are all his. Last year he left only 5,000 tulips to the ground. He has set out at least 95,000 this year. For fear that he might run out of work this summer, Price had about 15,000 gladioli to set out. And there are hundreds of lilies and amaryllis bulbs.

Reason Soap Will Float

Any soap can be made to float by manufacturing it by a process that presses air ducts into the bar, says Popular Mechanics. These ducts also speed up curing, permitting the soap to dry out from the outside. So small are the ducts that they retain air, preventing water from entering. This results in floating. The old method was to beat air into the soap before it was shaped into bars. This method he soap porous, since it was filled with minute air cells.

A judicious use of flowers is urged by the Quebec Tourist Bureau to make rural hotels even more attractive, since there is nothing so restful as beds of flowers in front of and around buildings in both town and country.

A male stenographer wouldn't quit a \$25 job to wash dishes for nothing.

Supremacy Of The Law

Even England's King Must Obey Command Of Court

The Duke of Manchester, sentenced to nine months in jail for fraud, observes ruefully that his case is mistaken for it is thought it is unmitigated fun to be a duke. This seems a reasonable statement. If the head that wears a crown cannot always rest at ease it is not to be expected that the head which wears a coronet with strawberry leaves will go through life without a hurt.

Putting a British duke in jail for fraud is appropriate in a Jubilee Week which has repeatedly sounded the note of the supremacy of the law to crown and caste. Burke said of the meanest English hovel that the winds may enter it and the rain may enter but the King of England cannot enter without the owner's permission. On the other hand, a court of law is something which every Englishman must enter, even the King. It will be recalled that some time ago George V. was plaintiff in one of the London courts against a middle aged man who suffers from the delusion that he is the King's eldest son by an early marriage.—New York Times.

Cook Wins Strange Duel

Special Stew Brought Down Hunger Strike Of Agitators

After an anxious few days the cook of the fortress of Honswijk, Holland, near Utrecht, is smiling again, for he has won a strange dueller.

A band of German Communist agitators interned in the fortress went on a hunger strike. They turned up their noses scornfully at all food served to them.

For three days the cook labored to break down their resistance with the choicest dishes he could turn out. The Communists swallowed hard to stop their mouths from watering at the sight of the tempting food, but wouldn't eat it.

Then the cook made a beautiful goulash. When it was placed before the Communists they refused to eat it for a minute. Then the strike was over. Dishes were cleared in record time. Now the Communists and the cook are great friends.

Have No Individuality

Ants Work As Their Forebears Did 50,000,000 Years Ago

Lord love you, who would be an ant? True, ants do not suffer from unemployment. When you move a stone, there they are, all rushing about and very busy, and all doing exactly what their forebears did 50,000,000 years ago. At least, Professor Dymond, of Ontario Royal Museum, says so. He shows that all the ants are of the same heredity, one being a soldier, another a servant, and so on. No social changes ever take place, no reforms. The ant population has no new ideas about government, war, business, family, pleasure, or anything else. Custom rules everything with them. The ant goes on toiling not because he is thinking, intelligent, characterful citizen, but because he has never developed the power of individuality. So he still lives in a mound, or under a stone.—London Daily Express.

Peanuts Worth Money

Error Might Have Been Costly, But Man Was Honest

The thrill of an impending christening fresh upon him, Louis De Costerio, roadhouse waiter, rushed into a candy store in North Attleboro, Mass., and ordered 25 cents worth of peanuts.

At home, he put his hand into the bag and pulled out \$750 in bills. The clerk had given him a bag containing the day's receipts. De Costerio went back and exchanged the \$750 for 25 cents worth of peanuts.

Are Real Benefactors

The Mitou family, one of the richest in Japan, has ordered five grammes of radium from the Belgian Congo at a cost of 1,000,000 yen. Four grammes will be placed at the disposal of the Cancer Institute and the other given to the Physical Research Institute.

Speaking as an artist, one would say that the golden skin of the grapefruit is beautiful, but speaking as a practical person, one must admit that it is generally the juice that catches the eye.

Dry rot is a name for the decay of timber after it has been seasoned. Dry rot is usually slow in action.

Fidelity is a key that has opened many a feminine heart.

CHECK ON ITALY?

Reports from England state that a movement is gaining strength to close the Suez Canal to Italian troops if the Italian-Abyssinian controversy becomes more acute. The map above shows how effectively such a blockade would shut off direct route to Italian Somaliland.

Direct Air Mail

First "Over The Top" Flight Completed Successfully

Winging through rain squalls, Grant McConachie landed his big tri-motored plane at Calgary, completing the first over-the-mountain commercial flight from Calgary to Vancouver.

The young United Air Transport's pilot flew from Kelowna, B.C., about 300 miles, in a direct "over-the-top" flight, carrying five passengers and the first aerial mail and express to be sent from Vancouver to Calgary via the mountains route.

A daily aeroplane service could be operated with ease between Calgary and Vancouver, Grant McConachie, youthful pilot of the tri-motor monoplane, believed.

FASHION FANCIES

CONSERVATIVELY SMART FOR SUMMER DAYS

By Ellen Worth

For office, tea party or trip to town. Here's one of those useful little things that are dear to the hearts of the business woman. It's a dress that does for luncheon at a smart restaurant, or for dinner in town.

It's made of exquisitely lovely sheer crepe shadowy print in pale to copenhagen blue tones. The collar and bow are of crisp white organza. You'll find it very simple to sew with its easily fitted raglan sleeves. Style No. 532 is designed for sizes 14, 16, 18 years, 36, 38 and 40 inches bust. Size 16 requires 3 1/2 yards of 39-inch material with 3/4 yard of 35-inch contrasting.

Patterns 20c each. Address mail orders to: Pattern Department, Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

The Spring Fashion Magazine is better than ever. Entirely illustrated in color you will find it a very stimulating fashion edition. There are clothes for cruising and clothes to brighten the lives of stay-at-home. Many delightful little models for the smaller members of the family. Of course, patterns are obtainable. The designs illustrated. Send for your copy to-day, the price is 20 cents.

When Shadows Fall

By WILL R. BIRD

There never has been a more dreary and gloomy time on this earth than that which we call the "Great War." There may have been more cruel slaughters in the history of before civilization; but never since Christianity and culture became dominant. And there never have been more glorious hours than some of those we lived "over there." Horror—sure! Glory—sure!

It was evening in the May. We had come from the trenches in front of Avion and were due for a "rest" somewhere. But who could go down in those clammy shafts if it were possible to sleep in a snug bivvy and your side kick had pushed together in a pocket of ground where the grass has grown lush and still held the heat of the sun? We had "salvaged" a share of the corrugated, and a few sandbags made the sides, and there we could draw and gas at the stars until sleep overcame us, for the corrugated was in one case of rain.

We had rested all the day, with nothing but clean overalls and a bit and eat. The cooks had been kind, and there was mail from home. Canada mail in the soft evening air voices seemed to grow musical. Someone up the slope had sung and there was a soldiers' harmony of popular songs, earnest voices if not well trained. Away in front of us the towers of Mount St. Eloi were like sentries in the dusk. Now and then a light twinkled in the village. There were horse lines everywhere.

All was stir as the dusk thickened, and transport was on the move away back. We didn't have to do a thing but let ourselves be delighted by the labour. Jimmy read bits from his letter. Some of the boys back in his home town had enlisted, and his poor old mother, with three boys at the front, was a trifle better. We got thinking of what she had written.

A lad we both knew appeared suddenly. He belonged to the good old 49th, and he was going to see his dad through the Vimy show. We talked rapidly for a few moments, and then he was off. A few days later near Villers au Bois some infantry were in camp and all at once a "bugle blew 'East Post'." As the haunting sweetness of the call came over the hill it seemed to put a spell upon us. Spring had come. There were flowers where there had been blasted earth and they hid the wreckage of old trenches. We were out for rest. We had come to the voices from Canada were with us, for we had read the 49th had parts of our letters. And something about it all made us suddenly choked for speech, made us thrill with a pride at being there, and for that moment the glory of being fighting men swelled our hearts.

Then we rose and led our friend across the way to where some of the thirteen platoon had made sleeping places, and we had decorated them with German signs that Jimmy had been carrying with him for two weeks. One read "Vieh," and the other "Ferde." The boys thought it grand to have such adornments and were waiting patiently until their stretcher bearer joined them to find out the meaning of the words, and we chuckled together as we explained. The first was "cattle" and the second "horse" and what a little there would be when those lads knew.

We walked back a distance with the Forty-nine, just walked without talking. The night was too fragrant with the falling dew and scent of flower and green grass, too soothing with the murmur of voices, for us to talk. Then "So long, Joe." "So long, boys."

Back at our bivvy Jimmy and I sat for hours, just drinking in the night, the sounds about us, the guns firing on the Somme, the faint far-away rattle of machine gun fire, traffic, dropwings. Never, as long as I live, will I forget that night, it seemed to hold us, enthrall us. I wonder where Jimmy is now, if he remembers. It's a long time since that night, but old Vimy is still there. Supposing he's there, trying to find that very little hollow as Tim going to do—when we go back, next summer!

Retains Its Freshness

Freezing Is New Process To Keep Sweet Corn

Government agricultural experts have found that sweet corn frozen within four hours after it has been picked retains its original freshness from six months to a year. Freezing stops most of the changes which normally occur rapidly in corn. In the experiments gathering, grading, husking, scalding and cooling and freezing were all completed as rapidly as possible. The scalding, it is believed, temporarily stops the chemical action taking place in the corn and the freezing permanently stops the action so that if served six months later its original freshness is retained.

Paris plans a new intellectual centre called the International City of Thought and the Arts.

Don't think the man who makes the longest prayer in public can always get the longest credit.

SUNDAY SCHOOL LESSON

JUNE 9

THE HOLY SPIRIT

Golden Text: As many as are led by the Spirit of God, these are sons of God. Romans 8:14.

Devotional Reading: John 14:25-31.

Explanations And Comments

What the Comforter Will Do, John 14:26. Unless he went away, Jesus told his disciples in his farewell talk, the Comforter would not come, but if he went he would send the Comforter to them. The word Comforter used for the Holy Spirit, means One who strengthens, upholds, rather than One who consoles. Advocate, Helper, are other translations of the Greek word given in the Bible footnotes.

It was best for his followers that he should leave them, Jesus said. How could it be for their advantage to their presence? To lose the daily companionship of their Lord? The Holy Spirit is the continued Presence of Christ himself. Christ revealed Christ to them, made plain the spiritual truth of his teachings. They knew Christ, but after he had left them. While he was with them they were weak, unable to walk alone. After he went away, Jesus promised his witnesses to carry on his work, they became towers of strength, great leaders, who continued all that Christ had begun to do and teach.

When the Holy Spirit has come, he will convince men of sin, that it is a sin to believe on Christ; of righteousness, because Christ was going to the Father. The Holy Spirit will convince men of justice, because Christ is a sincere and righteous Teacher, and not, as they had thought, an impostor, as will be clearly demonstrated when the Father has raised him from the dead and set him at his right hand away, leaving him to rule in the world. The Spirit will convince of judgment, of condemnation, because the prince of this world hath been judged. "Did not sin in Calvary in the rulers, in Pilate, in the soldiers, in the multitude, uncivil itself as if by an irresistible compulsion, and at last exhibit its whole terrible length? We say sin was exposed on that day—judged," said Christ. "Did not sin in Calvary, as it were, not punished, but exposed and condemned, judged as a prisoner in court is judged when he is found guilty and sentenced as a criminal, even before the hand of the law takes him from the bar?" (Thomas E. Bartlett.)

Recipes For This Week

(By Betty Barclay)

OLD FASHIONED STRAWBERRY SHORTCAKE

2 cups flour
2 teaspoon salt
2 tablespoons sugar
4 tablespoons baking powder
3 tablespoons shortening
1/2 cup milk
1 quart berries

Sift dry ingredients; mix in shortening; add milk to make soft dough; smooth out lightly. Bake in greased deep layer cake tin in hot oven at 475 degrees F. for 20 to 25 minutes. Split, butter and spread sweetened crushed berries or other fruit between layers.

KEDGEREE (A Breakfast Dish)

2 cups cooked fish, fresh or canned
4 tablespoons butter
1 cup cooked rice
Salt and pepper
2 hard-cooked eggs

Free the fish from skin and bone. Melt butter in a saucepan, add the fish and stir gently. Put in the whites of the hard-cooked eggs, and season to taste with salt and pepper. Move gently about over the heat until thoroughly hot, and serve on a flat dish with the yolks of the eggs, pressed through a ricer, over the top.

Tribute To Soldiers

People Honor Canadian Flyers Buried In Texas Cemetery

The only British soldiers of the Great War buried in the United States rest in a little plot in the Greenwood cemetery at Fort Worth, Texas. Tribute was paid to their memory when several scores of persons gathered at the plot and sang hymns. The British Empire and the United States draped around the central monument that marks the graves of 11 men and the baby daughters of a British soldier. The soldiers were Canadians, members of the Royal Flying Corps, in training at Bebrook field when they lost their lives.

Origin Of Old Term

Ancient sailors believed that the halcyon, a bird of the kingfisher family, nested on the waves about the time of the winter solstice, and that during this time the sea was so calm that the ship would be safe. The term "halcyon days" for times of peace and tranquility.

Little Journeys In Science

FLUORINE

(By Gordon H. Guest, M.A.)

All chemical elements may be arranged in families, the members of which are closely related. Fluorine, chlorine, bromine, and iodine make up a remarkable family of non-metallic elements, the halogens. The whole is often called the halogens, which means producers of sea salt. These elements are given this name by scientists because compounds of these elements are found in sea-water. These elements have a very strong tendency to combine with metals and with hydrogen to form compounds known respectively as fluorides, bromides and iodides, which are often called the halides. Some of the halides, such as sodium chloride (common salt), potassium chloride, and silver bromide, are of great commercial importance.

Fluorine occurs abundantly in the minerals fluorapatite and cryolite. Traces of fluorine compounds are found in the bones and enamel of teeth, and some fluorine has been detected in the blood, milk, and brains of animals.

Fluorine is the most active element known, and was not prepared until 1886. This difficult task was accomplished by a brilliant French scientist, M. Henri Moissan, who produced diamonds from pure charcoal. He obtained the element by the electrolysis of fluorosulphuric acid, using an apparatus constructed of platinum. Fluorine was given off at the positive electrode.

Fluorine is a pale greenish-yellow gas which may be condensed to a pale yellow liquid. It combines extremely violently with hydrogen, and most metals burn in it. It is interesting to know that fluorine and oxygen do not interact.

One of the most useful compounds of fluorine is hydrofluoric acid. This acid attacks glass, and hence must be kept in glass vessels of gutta-percha or ceresin, a sort of hard mineral substance. It is used for etching glass. For etching, the glass is drawn on the waxed surface with a stylus. This stylus is then applied to the surface and in a short time the glass is etched. The wax is then removed with turpentine.

Search May Be Ended

Man In Brantford, Ont., Claims He Has Holy Grail

Has the search for the famous Holy Grail ended in Brantford?

George B. Bremner, who is 65, and displayed an ancient wooden vessel which he claims is the original. Bremner declares the vessel was presented to his brother-in-law by a Christian Jew, in Jerusalem several years ago. The Jew, the last of his line, said the Holy Grail was given by Pontius Pilate to an officer of the Roman guard. The officer, so the Jew claimed, was an ancestor of his. It had been passed down through the family for hundreds of years.

The vessel is of olive wood. It is remarkably well preserved, if its age is that claimed.

Tradition has it the Holy Grail was obtained by Joseph of Arimathea, who took the body of Christ from the cross and buried it. Joseph took the Grail to Glastonbury Abbey in England, so the story goes.

The Holy Grail was sought by King Arthur and the Knights of the Round Table and by the Crusaders.

Greenwich Clock Being Overhauled By Experts

Has Been Stopped For First Time In Over Eight Years

The clock which gives the world Greenwich Mean Time has been stopped for the first time in eight and a half years.

Its 288,000,000 ticks, one to a second, may have impaired its working slightly, so the officials at Greenwich Observatory have decided to have it overhauled.

The clock is one of a series of four used for astronomical observations, an official of the observatory said. "It has established a record for the number of years it has run without stopping. Highly skilled workmen will undertake the delicate task of overhauling it. In the meantime, the clock will be kept by the three other clocks. They are all 'master' clocks driven by electricity."

Amelia Earhart Is Ambitious

Goal In Aviation Is To Equal All Records Achieved By Men

Miss Amelia Earhart, ocean and long distance flyer, told several hundred members of her sex that her goal in aviation is to equal all records achieved by men.

"I'll keep on flying until I achieve an aviation record that no man has achieved," Miss Earhart said. "I'm going to equal her records and then some."

"One Wide River To Cross"
"The Unknown Port," Etc.

SYNOPSIS

Nancy Nelson is a sub-beg, a gay, irresponsible girl of nineteen, with no care beyond the choice of her costume for her coming-out party. Suddenly, in the market crash, her indulgent father loses all he had, and his family is faced with the necessity of a simpler method of living. At this juncture a letter is received from an eccentric relative in Colorado, who offers the girl a home on what seems to be impossible conditions.

Now Go On With The Story

CHAPTER III.—Continued

There were also plans to make for Aunt Judy, who was to sail in a fortnight. The air was filled with a subtle confusion and unrest. And then one late afternoon, returning from a tea to which her mother had urged the girl to go, Nancy picked up the telegram on the hall table. It was addressed to Jack, but she grasped the envelope eagerly, her heart pounding as she tore it open. A dim hope that Cousin Columbine would wet-blanket the whole idea, swept through her, but the message, eccentric and to the point, read briefly:

YOUR LETTER SHOWS YOU JOE A TRUE NELSON STOP YOU GET JOE ON RANCH THREE MILES FROM HIDE STOP BOHRY TO HEAR OF YOUR FATHER'S REVERSES STOP IF NOTIFIED WILL SEND CHECK TO COVER EXPENSE OF TRIP FOR BOTH OF YOU STOP ADVISE HOME AS NELSON AS POSSIBLE—COLUMBINE NELSON.

Nancy read this twice, her hands gripping the paper tensely. She was still staring at what seemed an irrelevant sentence as her father, when he had entered the room to see whether she had no chance to conceal the tell-tale yellow message. He asked, a touch of alarm in his voice: "What's happened?"

She glanced up, forcing a smile of reassurance.

"Nothing to worry about. It's a telegram for Jack. No bad news, Daddy."

"Let's see, daughter."

He stretched out a hand, but Nancy thrust the paper into her coat pocket. "No," she said, "you'll have to wait till Jack comes home and tell you. He took Aunt Judy over to the Spears on some last errand."

She moved away, his eyes following her, puzzled.

"But who's it from, Nancy?"

The girl laughed.

"You're just as curious as an old woman, Dad; but I promised not to tell, and I'm not going to. You won't have long to wait. It's almost dinner time. Here's Aunt Louise."

She darted off before he could question any further, but as she reached her room a voice recalled her, and Jack, who had come in close on his aunt's heels, was up the stairs.

"Hi there! Dad says I've got a telegram. What luck?"

Nancy held it out, watching him read it. The boy drew a deep breath of relief.

"Good! That's settled then."

"It's not if Dad objects, or—Mother!"

She couldn't keep the ashamed glow out of her voice, and catching his

When your daughter comes to womanhood

Most girls in their teens need a tonic and regulator. Give your daughter Lydia E. Pinkham's Vegetable Compound for the next few months. Teach her how to guard her health at this critical time. When she is a happy, healthy wife and mother she will thank you.

Sold at all good drug stores.

Lydia E. Pinkham's Vegetable Compound

meaning Jack said scornfully: "Don't be a slacker, Sis. Come down and see how they all react. Every one's there, even the kiddie. We'll take a vote. Buck up, Nancy. It's a pity if you can't help but when all the rest of us are trying to."

That hurt. Nancy turned away to hide the tears which sprang into her eyes. A slacker! Well, she'd show him! If only she wasn't so beastly scared at the idea.

"Be down in a second," she said as her brother made an impatient gesture, and then added angrily: "And don't you call me any names before the others!"

"Oh, see here!" He followed her into the room, closing the door. "I didn't mean anything, Sis, honest. I was only afraid they'd see how much you hate to go, and put their feet down. Come on now. Let's get it over before dinner."

The family's rebellion was very nearly unanimous.

Said Dad: "If you must have jobs, both of you, surely we can find something nearer home."

Said Aunt Louise: "You're too young and impressionable, Jack, to spend six months or so in rough surroundings; and Nancy would die of boredom if of nothing worse. What put such a wild idea into your head?"

"He was only trying to help," defended Aunt Judy with her unwavering loyalty, "but Colorado is terribly far away, Jack. I'd worry my head off," while Phil, the ten-year-old, exclaimed excitedly:

"Geel! folks, I'd like to be a cowboy! Just think of quelling school and staying outdoors all day!"

And strangely, this innocent remark of her younger son was what stopped the protest on Margaret Nelson's lips. In a flash she remembered that not many months ago the family doctor had said of Jack: "If that boy were mine I'd let him forget school for a year or two and live outdoors. A job on a farm would be worth considerably more to him than a college."

Yet because Jack seemed reasonably well this good advice had not been taken very seriously. But now, looking up at the five-foot-even inches of too-tinny boyhood, those warning words came back, and to the complete surprise of everybody.

Mother said: "It may be a splendid thing for Jack—an outdoor winter is a milder climate; but—"

"You're not implying," broke in her husband, "that you'd let those children go off there all by themselves?"

"Children!" This exasperated exclamation came from Jack. "I'll say if Nancy is old enough to be launched in society with a big spouse, she's old enough to be away from home for a few months—with a relative too. As for me, Dad, you bet I'll have to do a man's work or lose the job. Why, I'll be eighteen on—well, on my next birthday."

Since his previous birthday was only six weeks back, this brought a laugh. Then Aunt Judy said: "And what does Nancy think of all these plans?"

The girl hesitated. All eyes had turned upon her; but glancing up she saw only her brother's, and something new, wouldn't it? And it couldn't be very much duller than Edgemere."

"But, Nancy!" protested her father in distress, "you'd be living with an old lady, one you've never seen and who we've reason to believe is eccentric. And if she paid your fare you'd be in duty bound to stick it out a while, no matter what you found."

"But I'd be earning my living," she retorted, wondering why she was arguing on the wrong side, and what had got into her. Why, in fact, did she tell them the whole truth—that she was frightened stiff at the prospect—would almost rather die than spend a winter with Cousin Columbine, but was ashamed to admit it before Jack?

"Well," declared Aunt Louise, "it's the most extraordinary plan I ever heard of. And from Nancy! As I said before, what put such an idea into your heads?"

"Circumstances, of course," spoke up Aunt Judy. "They want to poke

through the hard sledding; and I think they're splendid. But how could we let you go so far from home, dears? You might be sick."

There followed a silence before Mother said: "I'm not in favor of this move yet; but I'll have to admit that according to Doctor Strong Jack's more likely to be sick if he stays in school." She went on to tell them of the doctor's chance remark, and added: "I thought at the time that he was over cautious, Jack seemed so well; but the boy has grown awfully thin, and I dare say life in the open air would build him up if he didn't have to work too hard."

Aunt Judith sank back and stared at her sister.

"I'd never have expected that," from you, Margaret. But if you ask me, Nancy will expire of loneliness in about one month. What will she do with no young friends to run around with, and Jack three miles off on a ranch?"

The boy laughed.

"I'd talk as if of the population of Pine Ridge was made up of Indians about seventy. Aunt Judy! Didn't Cousin Columbine mention a postmaster's daughter? And of course there are others. Who knows but Nancy will find her—her affinity or whatever they call it, out in the big wild West?"

"Affinity!" snuffed Aunt Louise. "Where did you pick up that nonsense? And it's far more probable that what she'll find is a devastating attack of homesickness, young man."

"Well," Jack retorted, "that's nothing fatal."

"It might as well be," observed his father. "I remember spending a summer at my grandmother's farm when I was twelve. I expected a real lark, but—homesick! Well, I warn you kids that homesickness is no light matter."

"If I spoke you'd be riding horseback all day long," spoke up the little brother enviously. "I wouldn't think of being homesick if I had a horse, Daddy. Will you wear a four-gallon hat, Jack? And leather chaps with fringe all down your legs like they do in the movies? Gee! I wish I was going too!"

"We don't know yet whether anybody's going soon," returned his father. "Where's Cousin Columbine's letter, Margaret? Let's make sure what is expected of our Nancy."

There ensued a fruitless search for the long epistle; but Mother said: "I remember those duties pretty well, Jim. Nancy was to dust the mansion every morning, get supper Thursdays, sew, read the paper aloud, get to bed by nine-thirty."

"And abstain from the boy friend," chuckled Jack. "Admit that last is a big order for Nancy."

"A lot you know if you think I'd run around with those country punks," replied his sister. "Would any fellows who could help themselves stay in a backwoods place like that? And I've no interest in the other sort, so Cousin Columbine needn't worry about those young men callers she mentioned. And you needn't either," Nancy told her mother with a smile.

"I spoke you'd see Pike's Peak," observed the small boy thoughtfully. "It rises fourteen thousand feet above the plains, and was sighted by Zebek Pike November 1896 when with fifteen soldiers he climbed to the summit of Cheyenne Mountain and—"

"You see," broke in Jack, grinning, "that's the boy who ought to go to Harvard! Imagine me reciting whole pages out of history, Dad! Why—in?"

He stopped abruptly because the curtains at the door had parted and a loud announced: "Dinner is served, Mrs. Nelson. And," (she came forward, extending a silver tray on which was lying a yellow envelope), "here is another telegram for Mr. Jack."

CHAPTER IV.

Jack took the telegram, staring at it for a surprised moment. Then Phil cried out impatiently: "Why don't you read it? I bet you anything that Cousin Woodbine has changed her mind."

"Woodbine!" Jack shouted, while even Dad forgot his worries in amusement at the little boy's mistake. "The lady's name is Columbine, you crazy kid, and," (tearing open the envelope), "she says: 'ADVISE BRINGING PLENTY OF HEAVY UNDERWEAR AND FLANNEL NIGHTGOWNS FOR COLUMBINE STOP NIGHTS AND EARLY MORNINGS APT TO BE COLD. COLUMBINE NELSON.'"

"I'd give a lot to see Nancy in a dandelion nightgown," observed Phil that night. "Mrs. Grant had one on the night I slept over at Tim's house, and she came in to give him some medicine. 'It made her look like an

For Baby's Bath

More than that of any other member of the family, baby's tender, delicate skin needs the greatest care and attention. The soft, soothing oils in Baby's Own Soap make it specially suitable for babies, and its clinging fragrance reminds one of the roses of France which help to inspire it.

"It's just for you and Baby too" 22-28

wid lady. I bet Nancy wouldn't be found dead in one, or Mother either. Come on. Let's eat."

Dad was still smiling as they moved towards the dining room; but once seated, he looked across at Mother and his eyes clouded. Both were thinking that this would be the last well-served dinner in the old home. Two maids were leaving next day; and only the cook was to remain until the city house was closed.

Remembering this fact, Aunt Judy had stopped at a florist's on her way home, and a dozen jonquils nodded gaily from the centre of the table.

Aunt Louise, eyeing them with disapproval, started to say something about "foolish extravagance," and then held her tongue. After all, she thought with extraordinary tact, if Judy wanted to spend money for something perishable in these hard times, it was her own business.

So Judith Hale's "extravagance" (the last she was to indulge in for many months), remained uncomered, adding a note of cheer to that dinner table, as she meant it to; yet as the moments passed Mother kept thinking sadly of how soon they would all be scattered—separated.

So, Dad, and the little boy at Edgemere—Judith in Europe—Louise alone in a city boarding house—Jack and Nancy.

This last she refused to face just then, and said when Jack resumed the subject: "Oh, let's forget it, dear, while we eat dinner."

"But we've got to decide, Mother," he persisted with impatience. "I dare say Cousin Columbine's expecting a telegram to-night."

"Never mind," put in his father. "It won't hurt the old lady to wait for a message until tomorrow. But we'll decide the question this evening, Jack. I promise you. After all, it's as easy to face things now as later."

(To Be Continued)

A Mobile Army

Germany Plans For Swift Movement Of Troops

Authoritative sources disclosed in Berlin that the German military command plans a highly mobile infantry and artillery which will enable the army to move at 80 miles an hour "over almost anything except woods."

Two motor vehicles for every four infantrymen is the new army's ratio to obtain an unprecedented flexibility and speed.

Open automobiles carrying powerful guns will be used over most roads, sturdy trucks with a capacity of 20 men will be employed on congested highways and near the front, and tanks or armored cars are planned for front line service.

Light field pieces, splendid highways strategically extending to the frontiers, commissariat equipment, motor vehicles, and tanks are included in the array of improvements that a foreign expert described as "leaving nothing, not even the weather, to chance or the luck of an enemy."

The underlying principle, he said, is that a future war will be a "fast" one, requiring rapid movement of men and arms, a number of fronts while swift airplanes sweep over an enemy city to destroy communities and morale, to keep rival planes away, and to conduct reconnaissance.

Tragedy For The Drummer

Sling Broke During Change Of Guards At Windsor Castle

Presumably it is safe to say that there are few who have not seen Bateman's cartoon of the Guardsman Who Dropped His Rifle.

He should draw a companion piece "The Drummer Who Dropped His Drum."

The other day they were changing the guard at Windsor Castle. It was, of course, when the King was in residence there, just before the Jubilee celebrations. The public—it is estimated there were 10,000 of them who turned out to see the grand sight—flocked to the ceremony.

With the splendid bearing for which they are noted the Grenadier Guards got under way. They were headed by their band. In the front rank of the drums marched the unfortunate victim of the tragedy.

The sling which carried his drum broke, the instrument banged and clattered along the ground, rolling along beside the marching men. Most mortifying.

It says much for the discipline of the standing army that not a man broke step, nor even looked toward the offending instrument. Nor even the drummer—he just kept marching.

A civilian picked up the drum and returned it.

Has Place In History

Plaque Unveiled At Base Of Mimosa Tree In Natal

In a quiet garden of a residence in Maritzburg, Natal, a company of distinguished people honored a flat-crowned mimosa tree, under the spreading branches of which General A. W. I. Pretorius, members of the Volksraad, and members of the Natal Republic decided on July 5, 1842, to accept British rule. The 1845 group unveiled a plaque at the base of the tree telling of its place in history.

From 38 to 108 hairs daily are shed normally by young men and women between the ages of 18 and 26; between the ages of 50 and 60, this number exceeds 120 hairs daily.

Father: "But if you marry my daughter, what will you live on?"

Suitor (blandly): "Oh, she'll remain here as your housekeeper, and I'll become your secretary."

1,000 PAIRS OF MONARCH DEBUTANTE SILK STOCKINGS Free!

Go to your druggist or department store and buy RIT (any color, 15¢-2 for 25¢). Use it. Then tell us in a statement of 50 words or less, why you prefer RIT—1,000 pairs of Monarch Debutante full-fashioned—shadow-free pure silk children's stockings—latest Spring shades—prizes to 1,000 entrants. There are dozens of prizes to be won. RIT comes in 33 basic vibrant colors, from which can be produced over 50 of the newest Paris shades. **FAST COLORS WITHOUT BOILING!** Only RIT offers this advantage! RIT is the modern dyes for dyeing—superior to ordinary "surface dyes" because it contains a patented ingredient that makes the color last as long as the fabric and last longer. Sold everywhere.

HOW TO WIN

1. Write a short statement (under 50 words) on why you prefer RIT (dyes and send it together with an empty RIT package (or pairs of Monarch Debutante full-fashioned—shadow-free pure silk children's stockings—latest Spring shades—prizes to 1,000 entrants. There are dozens of prizes to be won. RIT comes in 33 basic vibrant colors, from which can be produced over 50 of the newest Paris shades. **FAST COLORS WITHOUT BOILING!** Only RIT offers this advantage! RIT is the modern dyes for dyeing—superior to ordinary "surface dyes" because it contains a patented ingredient that makes the color last as long as the fabric and last longer. Sold everywhere.

2. Send as many as you wish; contest closes midnight June 25, 1935.

3. 1,000 prizes will be awarded on the decision of the judges, which will be final. Whether you win a pair of silk stockings or not, we'll send you a \$2.50 coupon to charge, our famous booklet—"The A.B.C. of Home Rug Making."

4. Roman numerals.

5. To work the thousandth part of Of Thy vast plan, for us create With zeal a patient heart.

—J. H. Newman.

I believe if we could only see beyond what it is that our Heavenly Father means us to be, the soul, beauty and perfection and glory, the lovely spiritual body this soul is to live in through all eternity, if we could have a glimpse of this we should not grudge all the trouble and pains. He is taking with us now to bring us up to that ideal which is his thought of us. We know that it is God's way to work slowly, so we must not be surprised if He takes a great many years of discipline to turn a mortal being into an immortal glorious angel.

Little Helps For This Week

"If we hope for what we see not, then do we with patience wait for it."

"One day is with the Lord as a thousand years and a thousand years as one day." 2 Peter 3:8.

Lord, who Thy thousand years doth weave To work the thousandth part Of Thy vast plan, for us create With zeal a patient heart.

—J. H. Newman.

Gandhi Again

Mahatma Refuses To Sanction The Killing Of Rats

Mohandas K. Gandhi caused a sensation in a plague-infected territory of India by refusing to sanction "even the killing of a rat" as part of the anti-league measures by which natives were hoping to save human life.

Being an advocate of non-violence, the Mahatma said he would die before killing a single rat. He suggested strict observance of sanitation rules which would prevent rats breeding, and he advised adherents against killing them under any circumstances.

Flight Of Model Plane

With a flight of nearly three miles while in the air four hours 23 minutes, the model plane of a school-boy at Kramator, USSR, is claimed to have established a world record. The average height reached by the model was 4,500 feet, but at times it rose to an altitude of over a mile.

THE RHYMING OPTIMIST

By Aline Michaelis

NOT TOO NEAR

Let me not be too near
The lives I hold most dear,
Least much detail obscure
The plan, the purpose sure
Which in their being flows
Through bright and sunless hours,
May I, afraid, discern
How clear my loved ones' eyes,
How brave they are, how wise,
How strong, how full of fire,
The distance has its haze,
But yet the closer gaze,
Too fixed and too intent,
Must lose the full extent
Of all a life has meant.
Too near, I could not seize
On moods and moods of ease,
The soul's far boundaries.

Change Of Headgear

Toronto chauffeurs must wear derbies from now on. Not satisfied with wearing derbies themselves, the board of control notified chauffeurs, who have been accustomed to wearing caps as the most serviceable form of headgear in driving a car: "No more caps. Wear derby hats. There will be no exceptions."

Nine out of every ten heavy trucks in Germany are fitted with Diesel engines.

Inter-Schools Meet Won by Bellevue With 243 Points

Measles Epidemic Blamed for Coleman's Low Scoring, Forcing Out Contestants

Coleman athletes fared badly Saturday at the inter-schools meet held at Blairmore, being a poor fourth after the day's activities. In fairness it must be said that the team was badly crippled by the epidemic of measles which has swept the town during the past couple of weeks, so that Coleman had very few athletes to put into competition against the stars of the other Pass towns.

The mile race was the outstanding event of the day, being fought to a thrilling finish by Bob Emmerson of Coleman and Kanik of Hillcrest. Emmerson took the lead from the start and held it during the first two laps, when he was nearly 25 yards ahead of his nearest rival. Kanik began to close the gap in the third lap and it was neck and neck coming down the home stretch, both runners going all out in the last 25 yards to a driving finish, Kanik winning by a few inches.

Bellevue again retain the shield by winning 243 points. Results of the final standings, which are unofficial, are as follows: Bellevue 243, Hillcrest 190, Pincher Creek 97, Coleman 47, Blairmore 20.

MISCELLANEOUS

Born: To Mr. and Mrs. Frank H. Graham, on June 4, a daughter.

Mr. and Mrs. C. Rogers were Lethbridge visitors on Saturday.

Mrs. A. Bowling and daughter Muriel left Saturday for Calgary where they will reside for a month. Mrs. Bowling will take up permanent residence in Edmonton.

Miss Isabel Yuill, of Los Angeles, accompanied by her friend, Miss Rose, motored to Coleman and spent a few days the guest of Miss A. Yuill, popular teacher at Cameron school.

Nora McLeod, Muriel Jackson and Wilma Halliwell, nurses-in-training at University Hospital, Edmonton, are spending their vacations here, Nora McLeod being the guest of Mrs. C. J. Devine.

Dr. Marlon Powell, graduated last year from the University of Alberta, has gone to Toronto, having been appointed to the staff of Toronto Women's Hospital. He is a sister of Miss May Powell of Coleman high school staff.

"The Constitutionality and Economic Aspects of Social Credit" is the title of a most interesting booklet containing evidence of Dean Weir, Faculty of Law, University of Alberta, and Professor Elliott, Department of Economics, before the Agricultural Committee of the Alberta Legislature. The Journal would be pleased to pass it on to any who may desire it.

A. Harrison Slade, who has, during the past two months, supervised the installation of the modern coal cleaning plant at McGillivray mine, designed by Simon Carves Ltd., Manchester, left on Saturday for Montreal, via Chicago, and will sail this week for England. He expressed his appreciation for various courtesies extended to him during his stay here.

ST. ALBAN'S CHURCH NOTES

Whitsunday, the service will be as follows: 7.30 a.m. Holy Communion; 12.30 p.m., Sunday school; 7.30 p.m., Evensong and Sermon. Bible Study on Friday at 7 p.m.

ST. PAUL'S UNITED CHURCH

Morning service, subject of the sermon by Rev. Roy Taylor, "Harvest in the Field of Life." Evening: "The Tenth Anniversary of the United Church" will be the subject of the sermon.

In keeping with the summer season, services will last only one hour. You will be better able to meet life's difficulties after having waited on God in His sanctuary.

A Small Place

A young man walked rather pensively into the village post office. "Any letters for me today?" he asked the postmistress.

"No, Henry," she replied rather sharply.

"That's rather strange," he murmured half to himself.

"Nothing strange about that, young man," replied the postmistress. "You haven't answered her last letter yet!"

"War scares have become a stock-in-trade of partisan fighting."

The accompanying chart shows how the price of gasoline to the retailer has decreased and the gasoline tax has increased since 1924. The data for this graph are based on figures published by the Dominion Bureau of Statistics.

LOWER PRICES — HIGHER QUALITY

EVER since 1920 the price of gasoline has steadily declined. Few people realize this however because during the past ten years as the price dropped the tax increased. In 1923 there was no provincial gasoline tax and the average price of gasoline to retail dealers across Canada was 27 1/10 cents per gallon. Today the average price of gasoline to retailers is 18 1/10 cents but to this is added a tax of from six to eight cents per gallon which goes directly to the provincial governments. Not only has the price of gasoline fallen steadily since 1920 but the quality has

consistently improved. The gasoline consumer today gets more value than ever before.

Sometimes you hear talk of large profits earned by the gasoline refiner. In 1934 Imperial Oil earned \$3,023,400.12. This may seem to be a large sum but to earn it Imperial Oil had to make and market gasoline and other products amounting in value to \$82,841,311.15. That is to say Imperial Oil's earnings were relatively no greater than those of a merchant who, selling \$8,280 worth of goods in the course of a year, made a net profit of \$300.

The Sign of a Fair Deal

IMPERIAL OIL LIMITED

KING'S JUBILEE OF WORLD BENEFIT

John Edwin Price, whose featured editorials appear in 195 papers in the United States, Canada and the Hawaiian Islands, states that England's Jubilee is having a salutary effect on the thought of the world. He said recently: "A rainstorm seldom sweeps a rock. When some people are jittery over war scares, when some folks take too seriously a 15 per cent world depression it is good to see a great nation go forward with a magnificent gala jubilee as though nothing else startlingly abnormal was going on. Such an attitude has a steady influence on lesser peoples with more jumpy nerves." This writer further states that "in looking at the hole of the economic doughnut too many people forget that about 80 per cent of the world's population have had jobs and lived about as usual during this depression period—now practically behind us."

The King as a Husband

In his recent address to Parliament King George referred to Queen Mary not as "The Queen" but as "my dear wife." "I have been blessed," he said, "these five and twenty years by having my dear wife beside me."

King George is not alone the dutiful husband but the thoughtful one. At the recent Air Force dinner to the King he was served with some fine strawberries from South Africa. Calling the head waiter, he asked if he might have another order to take home to the Queen. "She enjoys these special treats," he said in explanation.

Such little human traits have deeply strengthened the hold the royal pair have on the affections of the people.

—Boston Post.

SENTENCE STIMULANTS

Is anyone else in the world glad that you are in it? Then your life is worth living. If not, you can make it so.

One of the boys on the local high school track team recently won an hundred yard dash. It was noted that he never once looked back.

Keep the "cash intake" ahead of the "I'll take it" and the bill collector will never wear out your doornail.

Eddie Cantor, the cutup of stage, screen and radio, was cut the other day. He underwent a major operation for some sort of stomach ailment. The job was done in Hollywood.
